Docket Index: Three Cases Against the Vicksburg Warren School District

Broome, Holly, and Gumbs-Gray, most recent first

Each case below has been compiled into a single searchable PDF containing every filed document in docket order. The tables give the docket number, filing date, what the document is, and **the exact page range where it sits inside that compilation**, so any citation can be opened directly.

Every document listed here is a public court record. Page counts and page ranges were computed from the source files themselves and verified against the merged compilations.

Notes on the compilations

- Page numbers are positions inside each merged PDF, not the page numbers printed on the original filings. A court document that reads "Page 3 of 9" at the top will sit somewhere else in the merged sequence.
- Several documents are **scanned images with no searchable text**. In Broome these are Documents 8 and 10; in Holly, Documents 5, 28, and 29; in Gumbs-Gray, most of the file. Text from those was read using optical character recognition, so a word search inside the compilation will not find them.
- **Docket entries that produced no document** are not in the compilations and therefore not in these tables. Those include text-only orders, minute entries, docket annotations, and deadline resets. Broome's docket lists 37 entries of which 26 are documents; Gumbs-Gray's lists 44 entries of which 33 are documents.
- Filing dates are taken from the courts' docket sheets and from the header stamp on each document.
